If you have a tablet device some of these apps may not be available. If you don't have enough data to download these apps at home, please let us know so we can make alternative arrangements for you. At times throughout the year you may be asked to download new apps as the need arises. Also remember, devices must be charged at home overnight as we don't have the facilities here to charge multiple devices. We realise that the cost to purchase some of the apps can add up. If this is an issue please install the free apps first and add the paid apps as you can afford to. Any queries please see your child's class teacher.
