

General Questionnaire to Parents/Caregivers

Executive Summary

Commentary:

As part of our school's self review process we surveyed our school community in Term 3 of 2023.

We consider the review process to be a valuable part of our continuing growth and certainly in line with our Vision Statement.

"Quality learning for all in a caring community"

The focus of our review is "the child." **We value the opinion of our parents.** It is important for us to know the areas where we are performing well and also the areas that we need to sharpen up in. ***With an eye to the future we were also interested in knowing of any innovations that our parent body would like us to develop.***

This questionnaire was given out to every family on our school roll. Comments were analysed to find commonalities in the data. The data was then grouped to find themes and this is included in the summary.

31 electronic copies were returned.

In total 46% of our school families completed this survey
